SAFETY BULLETIN 202200701 FOR LBX AND SBX SCRUBBERS

Dear Maintenance Manager,

Our records indicate that your plant has an LBX or SBX Scrubber, for which we have a safety update. We have added some important safety labels. Also included are instructions on building a platform to use when working on the scrubber.

Below is a list of items included in this package:

- a. New safety labels L-792131-00, L-792132-00, and L-792046-00A for your machine;
- b. SOP-2927, which shows you where to affix these labels. Please affix these labels during your next scheduled maintenance;
- c. Drawing B-382946-00, which describes the construction of a platform; and
- d. SOP-2614, which recommends use of the platform when any personnel is working on the machine.

If you have any questions, please contact our Service Department at 510-652-2200.

Sincerely,

Charles Rizzuti
Head of Engineering & Service
Geo. M. Martin Co.
